

ITALIAN DESIGN BRANDS S.P.A. LAUNCHES "IDB FOR ARTS" AN ARNALDO POMODORO SPHERE IN THE GROUP'S SHOWROOMS

Milan, 8 August, 2023 - Italian Design Brands S.p.A. ("IDB"), Italian industrial Group in high quality design, has launched the "IDB FOR ARTS" project, with the aim of promoting the link between design and art.

As a testament to the strong bond that binds the excellence of our brands to art, a path was launched to embrace the different souls of our companies to iconic works of art.

After an initial collaboration undertaken by Davide Groppi with the Peggy Guggenheim Collection in Venice, as well as the participation of several IDB brands in the "Quirinale Contemporaneo" project, the journey continues with the exhibition of a prestigious work by **Arnaldo Pomodoro, "Rotante Massimo, III," dated 1968, a sphere with a diameter of 80 cm**, in the new Meridiani flagship store in Via Manzoni, Milan.

IDB FOR ARTS will make it possible to boost and emphasize initiatives that the Group will promote for the valorization of Italian and international cultural and artistic heritage. The dialogue between art and design has always been alive in the collective imagination, and the harmonious synergy between creativity, design and craftsmanship reinforced by this project will revitalize the appreciation of art within our Group's excellences, allowing for cultural experiences of the highest level within our showrooms and flagship stores.

IDB FOR ARTS testifies both to our commitment to aggregating and shaping the future of Italian design and the desire to leave an indelible mark in the landscape of a valued sector of Made in Italy.

Andrea Sasso, Chairman & CEO of IDB, declares: *"With the launch of this project, we want to confirm our commitment to promoting initiatives that enhance cultural and artistic heritage. The close link between the world of art and design has driven us to develop ideas with a long-term perspective. I am proud that the first piece selected is by a very important Italian artist like Arnaldo Pomodoro, with whom we share a passion for Milan, the capital of design, and the search for shapes and geometries with a desire to experiment with materials to give life to objects of great significance. I am sure that the presence of the sculpture in our spaces will help give magic and value to IDB brands. This idea fits perfectly with the values of our model, which is based on complementarity and contamination to create a perfect synergy between different elements in order to offer our customers an offer of increasing value."*
